

Gain vital insights on the state of the US, Australian and New Zealand property markets to power your investment strategy

Inform your high net wealth clients on the asset class of one of their largest investments - off shore property. Be seen as a thought leader by delivering superior and independent insights on critical investments that your clients are making and you may be securing. Now on its 5th Asia Pacific Tour, the CoreLogic team of research directors and economists will provide the independent advice on the state of the property markets in USA, Australia and NZ. A number of different session types with flexible content and delivery can be accommodated to suit the needs of your clients.

Cameron Kusher is CoreLogic Australia's Senior Research Manager who has established a career in property research analytics over 10 years. Joining the company in 2008, his expertise in data analytics reporting has forged him a strong reputation with large corporations ranging from banking, finance and the mortgage services sector.

Cameron is a leading commentator on property market conditions sharing his insights with businesses and consumers through speaking engagements, key note addresses and commentary in the media across print, radio and TV.

Cameron is responsible for the management of daily data publications for the CoreLogic research division, where he works closely with Research Director Tim Lawless.

Prior to joining CoreLogic, Cameron worked as a specialist consultant focussing on residential and commercial property analysis for the real estate, consulting and development industries.

6 November 2015
Shanghai

Please call your Client Director or 1300 734 318 for more information.

Dr. Frank Nothaft is senior vice president and chief economist for CoreLogic, America's largest provider of advanced property and ownership information, analytics and data-enabled services. He leads the economics team responsible for analysis, commentary and forecasting trends in global real estate, insurance and mortgage markets.

Before joining CoreLogic Frank served in a variety of leadership positions with increasing responsibility at Freddie Mac. Most recently, he was vice president and chief economist responsible for forecasts, research and analysis of the macro economy, housing and mortgage markets. Prior to Freddie Mac, Frank was an economist with the Board of Governors of the Federal Reserve System, where he served in the mortgage and consumer finance section and as assistant to Governor Henry C. Wallich.

Frank frequently appears on local and national radio and television programs and has been widely quoted in The Wall Street Journal, New York Times and many industry trade publications such as National Mortgage News and HousingWire. He has been a regular guest on cable news channels such as CNBC, Bloomberg and Fox Business News.

Frank has served as president of the American Real Estate and Urban Economics Association, Board member of the Financial Management Association, Advisory Board member of the Real Estate Research Institute, Chair of the Real Estate Roundtable for the National Association for Business Economics, and as Editorial Board member of the Journal of Real Estate Finance and Economics.

Frank graduated from New York University with a bachelor of arts in mathematics and computer science and he holds a Ph.D. in economics from Columbia University.

Jonno Ingerson is CoreLogic NZ's Director of Research and Analytics. He joined the company in 2007 and since that time has built CoreLogic's research and analytics capabilities.

Along with his team, Jonno has expanded the CoreLogic research capability to now provide regular insight, analysis and commentary on the New Zealand property market through personal presentations and publications. Jonno is a regular voice in the New Zealand media providing commentary and insight to current market conditions and trends. Prior to joining CoreLogic, Jonno worked within a number of commercial organisations specialising in analytics and data driven marketing.

Jonno graduation from Victoria University of Wellington with a Master of Science in Marine Biology and Zoology and spent five years as a Fisheries Researcher. He lives and works in Wellington.
